## Swivel Eye Screws CDS | CDS-PSA

Grade 60

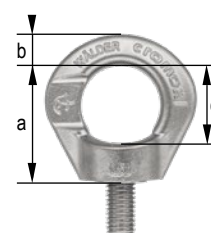

LIFTING SERIES

The cromox<sup>®</sup> swivel eye screws are available in various thread sizes and are designed to provide reliable hold in any load direction. When fully screwed in, the bail arm is rotatable 360° and can be adjusted in any desired load direction. The bolt's locking in the ring body not only guarantees simple mounting but also reliable and durable use.

By using duplex material AISI 318LN, we ensure the corrosion resistance of all components. The ring body and the screw part are 100% crack-tested, resistant to fatigue, and are tested according to DIN 580.
